

NEWFIELD NEWFIELD NEWFIELD

COMPREHENSIVE PLAN SURVEY

**Newfield (NY) Planning Board
April 2011**

COMPREHENSIVE PLAN SURVEY RESULTS: EXECUTIVE SUMMARY

The Newfield Town Planning Board (PB) is currently developing Newfield's first comprehensive plan. The plan is intended to act as a road map to guide future growth and development, and promote the health, safety and general welfare of the people of the Town.

An important goal of comprehensive plans is to identify important natural resources, unique features, and current and desired facilities and services in the Town.

There are many issues that will impact the Town's future and the Town Board seeks input and suggestions from the community in order to plan and govern effectively. The PB is obligated by law to seek citizen input when developing and modifying a comprehensive plan. One manner by which the PB has sought public input is via a mail survey sent to all 2,500+ mailing addresses with a 14867 ZIP code. The survey was mailed in early September 2010, with a deadline of September 30. We received back 311 usable surveys, for a return rate of a little over 12%.

This report is a summary compilation of data from the survey. It contains no analysis or commentary. The PB wishes to thank the volunteers who helped write the survey and prepare the mailing, and the citizens who took time to complete the survey. The results will be an important basis of the comprehensive plan. In addition, the PB will be hosting public input meetings this spring where participants can comment on the survey results and express other opinions so their interests can be reflected in the forthcoming comprehensive plan draft.

Copies of the survey and results are available at the Newfield Town Hall and Public Library. The survey and results are also posted on the Town website:

	Yes	No	No Response
3 Are you connected to public sewer?	11.3%	86.5%	2.3%

If yes, if you have any problems with the public sewer system, please explain what those are:

Four individual responses were received regarding problems with public sewer systems: (1) back up; (2) outgassing of septic/tank; (3) sewer charge should be linked to water usage - not units, neighbors have more people in house than my entire building; (4) sometimes my toilet backs up and won't flush, but I think this is a problem with the trailer park's system and not with the public system.

	Yes	No	No Response
If no, would you prefer to have public sewer?	24.4%	59.8%	15.8%

15 Other	The 25 "other" comments received are summarized on the next page.					

OTHER INCLUDES:

- Absolutely vital to protect our environment and community characteristics (items#3-7 in the first grouping ("Existing Town Characteristics") as well as roads, tect., etc. in anticipation of possibility of oil and natural gas drilling, especially using hydr change "planning policies" to read "zoning". (Bring Newfield in line with other townships in Tompkins County.)
- Atomic power
- Every resident of Newfield should have high speed access to internet e.g. broadband, DSL, etc.
- For wind and solar "not in my backyard" is not viable excuse.
- I favor consolidation of schools
- Keep farm land in Newfield
- Most of these should be the decision of the landowner
- No "fracking" or land use to store related chemicals, wastes, etc. EVER! Very important to protect all our land!
- NO FRACKING!
- Noise ordinances - of great value!
- Public garden plots, public composting facility/station
- Preserve our water supply and way of life water is live NO FRACKING
- Public water is way too hard
- Should stay out of landowners business
- Signage in hamlet board/committee pre-approval with specifications, i.e., wooden carved/supporting local talent... could be an expression of a cohesive community (mini Vermont)
- Some properties need cleaning up. Not necessarily for appearance, but junk cars and vehicles are going to leak fluids, etc. into the grown water eventually. ##### is a wonderful code enforcement officer, but there should be more enforcement. The ##### needs some competition! Their prices are outrageous!
- Town needs to stop being anti-development! Look at the towns in Tompkins county that have regular grocery stores, drug store, etc. T/Burg/Lansing, Groton, Dryden. We lose tax \$ not "growing" town needs to accept change.
- Town theater and youth recreation center
- Village café, better kept convenience store
- We do not need regulations, lets keep it Newfield
- We need high speed internet services - not available on Bishop Rd.
